### HACCP Training Program

Aug 2025

- Mainly focused on the food and safety control that is going to reach the consumers from farm to table concept
- Principles of Hazard Analysis Critical Control Point as the international standards that are meant to be followed
- Case study on the CCPs of Ice Cream commodity

## INTERNSHIP

### Vertical Green Farms

Nov 2024 – Jan 2025

#### Jr. Agronomist / Agriculture Assistant

- Involved in the crop production practices by using the key significant hydroponics technology inside greenhouse/polyhouse
- Applied plant care management techniques on various crops at different growth stages of the plant to sustain its own growth form
- Took manual care management in fertigation process in order to supply the whole nutrition to the plants under hydroponics

### DeHaat

Sep 2024 – Oct 2024

#### Sales Executive Trainee-

- Implemented sales tactics to keep the company products in the nearby nurseries
- Promoted the company products in various nurseries of metropolitan city

### Vertical Green Farms

Jun 2024 – Jul 2024

#### Trainee-

- Understood the concepts of hydroponics and implemented them in the real world to get the healthy, pesticide-free, sustainable produce of the commodities
- Managed the irrigation supply and fertilizer requirement to the plants moreover, performed intercultural operations in between rows and within the plants to upscale the quality of produce
- Enhanced the quality and increased the quantity of the produce by following most effective practices as well as maintained the sustainability of produce and environment for better tomorrow

## PROJECTS

### Mini Greenhouse Model | Lovely Professional University

Apr 2024

Skillset: Greenhouse Design Principle, components of Polyhouse Truss Frame Construction, Greenhouse Automated Cooling Systems

- Lead a group of 5 members and created a working model of mini greenhouse.
- The model represented the design and framework of an even-span high-tech greenhouse, also demonstrating the truss frame and cooling system used in such greenhouses.

Skillset: Model Building, IFS Design, Spatial Planning and Allocation, Research and Analysis, Project Management

- Lead a group of 5 members and designed a 3D model of IFS farm for semi-arid region. The model was designed for a 10acre area.
- It included a well thought out selection and allocation of enterprises, along-with estimated areas for each enterprise

## ACHIEVEMENTS

---

- An abstract published on souvenir journal in participation at **ICAATAS**

**Jun 2023**

- Secured second prize in intersection competition in plant pathology

**Apr 2023**

## CERTIFICATIONS

---

- S.T.C BIO.P | LPU

**Apr 2023**

Isolation of biopesticides on *Trichoderma harzianum*, *Pseudomonas.spp*, Rhizobium under supervision of expert professors, culturing and mass producing of these biopesticides

- T.C.N.T | MRU

**Jan 2023**

Gained virtual experience about various concepts in dealing with bonsai practices, beekeeping, lac production and mushroom cultivation etc.

## EXTRA CURRICULAR ACTIVITIES

---

- Participated in spring flower show |Lovely professional university

**Feb 2024**

- A Competition on 21<sup>st</sup> National Online Photography Exhibition & Competition I Manikarnika Art Gallery

**Jan 2024**

## Technical Skills

---

### Laboratory skills

- Isolation of Fungi and Bacteria
- Media preparation and pure culture

### Physical Skills

- Integrated Disease Management
- Potting media preparation
- Soil testing and nutrient management
- Intercultural operations
- Application of fertilizers and pesticides management

## CERTIFICATES

---

- **Implementation of HACCP food safety system in the food processing industry | Alison**

**Feb 2025**

Understood the importance of HACCP certification and involvement of food safety standards in the regulation part of agricultural industry

- **Supply Chain of Agriculture | Coursera**

**Nov 2024**

Understood the demand and supply of agricultural commodities and farm production cycles

- **Farm Management and Maintenance | Alison**

Overall maintenance and farm managing operations and implementing farm management principles on the

**Oct 2024**

- **P. M. F | LINKEDIN**

**Dec 2023**

Project Managements Foundations, handling and smooth flow of the project in a systemic planned process

- **AFRO IDSR | WHO**

**Dec 2023**

Understanding human pathological symptoms and knowing its preventive and curative measures

- **S.F.G | UDEMY**

**Dec 2023**

Preparation of compost and Vermi-compost in back yard of house and management of crops under biotic and abiotic conditions

## Education

---

**Lovely Professional University Punjab**

*B.sc Hons Agriculture —*

*CGPA: 7.31 Punjab*

**Jul 2021- May2025**

*Jalandhar,*

**Loyola Public School**

*12th with Science (ISC) — Percentage: 89%*

*Pradesh*

**2019 – 2021**
