## PROFILE

An exceptionally motivated MBA student with a strong aptitude for data analysis and problem-solving. eager to support data-driven decision-making in a dynamic analytics environment by applying academic knowledge and analytical skills to extract insights from complex datasets. shown ability to lead projects to success and collaborate effectively in teams.

## EXPERIENCE

### FIFA World Cup 2022, Qatar, Doha - (Oct-Dec 2022)

- Executed quick decision-making and efficient event management in a high-pressure environment.
- Contributed to smooth spectator flow and overall event execution through effective service delivery and crowd management.

### ITC Gardenia- Trainee ( Feb-May 2022)

- Gained experience across multiple departments.
- Developed strong time management skills and performed accurate data entry of guest information.

## PROJECTS

### Research Project (Aug 2025- present)

I'm now working on a thesis paper.

- I'll be focusing on the impact of personalized fitness and equipment availability in the gyms, which is often overlooked in my research gap.
- I'll be using surveys and data analysis to fill in the gaps in my research.
