Projects:

1. Sample-config (Dynata, USA)

Role: Full Stack Developer

Technologies: Angular, TypeScript, RxJS, NgRx (Store, Actions, Reducers, Effects, Selectors), Signals, Node.js, Keycloak IAM (SSO, Token-Based Authentication), Figma UI, Dynata Component Libraries (ng-axiom, ng-rubiq etc.)

Responsibilities & Key Contributions:

- Built reusable Angular components and **migrated Nexus (legacy) modules** into micro-modules.
- Implemented **Keycloak IAM** with SSO, RBAC, and secure token management.
- Refactored Node.js APIs and improved performance by **optimizing authentication flows**.
- Increased UI speed using **Lazy Loading** and **OnPush** change detection strategies.
- Delivered pixel-perfect UI from Figma and collaborated with QA, backend, UX and security teams.

2. Dynata+ (Customer Portal - Dynata USA)

Role: Frontend Developer (Angular)

Technologies: Angular 18, TypeScript, RxJS, NgRx (Store, Actions, Reducers, Effects, Selectors), Signals, Keycloak IAM (SSO, Token-Based Authentication), Figma UI, Dynata Component Libraries (ng-axiom, ng-rubiq, etc.)

Responsibilities & Key Contributions:

- Built reusable Angular components and implemented **Figma-based UI** with Dynata's component libraries.
- Developed **Audience Attributes, Feasibility, and Survey Launch** workflows integrating Node.js REST endpoints.
- Implemented Keycloak IAM with **SSO** (single sign on) and optimized **UI performance** using Lazy Loading.
- Collaborated with UX, backend, and QA teams ensuring alignment with enterprise design standards.

3. NielsenIQ – Respondent Management System (NielsenIQ, UK)

Role: ColdFusion Developer

Technologies: ColdFusion (CFML), MS SQL Server, HTML, CSS, JavaScript

Application Type: Respondent Lifecycle Management Platform (Front Office & Back Office)

Responsibilities & Key Contributions:

- Built and enhanced FO/BO ColdFusion modules, implementing multi-stage respondent workflows (Recruit → Validation → Approval → Export).
- Automated SMS scheduling, improved data validation, and optimized duplicate checks, enhancing respondent accuracy and reducing processing time.
- Developed role-based BO modules and supported multilingual (French, German, Italian) workflows for global operations.

4. Vamshi Rubber – Sales & Order Management System (B2B/B2C)

Role: Backend Developer (PHP)

Technologies: PHP (CodeIgniter), MySQL, REST APIs, PayPal integration, jQuery, Ajax

Application Platforms: Android & iOS (via REST Services)

Responsibilities & Key Contributions:

- Built **RESTful APIs for Android/iOS apps** and developed secure admin modules for users, products, categories, and transactions.

- **Integrated PayPal** for online/credit payments and implemented multi-role access (Admin, Client, User, Sales Executive).
- Automated **sales tracking**, client onboarding, and performance monitoring for field executives.

Educational Qualifications:

- 2012 **B-Tech (CSE)** from Gnyana Saraswathi College of Eng and Tech, Nizamabad, T.G.
