Yugal Kishor Jain,

Sr. Software Engineer

Email: yugaljain002@gmail.com

Mob: +91-8319136022

SUMMARY

- Master of Computer Application **(MCA)** from Disha Institute of Management and Technology, Raipur in the year of 2014.
- Having **7.8+ years of experience** in IT Industry (with **Straviso India Pvt. Ltd.**).
- Solid working experience on **React**, **React Native**, Android, Ios and RestApi's and Google api's, Sqlite Database and other External Library files.
- Ability to prioritize responsibilities.
- Ability to interact effectively with all levels of management.
- Quick learner, excellent in learning new technologies & quickly adapting to new environment.
- Highly motivated, focused, hardworking and result oriented individual with effective communication skill.
- Working knowledge of **Android Studio, Eclipse tool, VSCode, X-code**.

TECHNICAL SKILLS

- **Programming Languages:** Dart, Java, Java Script, Type Script, Swift
- **Web Technologies:** HTML, Java Script, CSS, Node, React.
- **Databases:** Oracle, My SQL, Sqlite, Hive, FireStore, RealM.
- **IDE Tools:** Android Studio**,** Eclipse , VSCode, X-code.
- **Operating System:** Windows, Linux, Mac.
- **Others:** Google Map Api's, Rest Api's, Firebase, External Library files, Flutter, React Native, Video call sdk, React
- **Architectures:** GetX, Provider, Redux (For State Management),
- **Sdk's:** Agora, Video-Sdk-Live, Twilio, Voximplant for video calls

ACHIEVEMENTS

- 1st Position in LEO District General Knowledge Competition organized by Chhattisgarh Government in District Kanker.
- Got the rank of LCPL in National Cadet Core, R. S. D. Govt. H. S. School Lakhanpuri.
- Awarded in CF digital India Pvt. Ltd. For performance.

EMPLOYMENT HISTORY

Sr. Software Engineer(React Native)| Straviso
India Pvt. Ltd.| March 2023 To May 2025

React Native Developer | CF Digital India Pvt. Ltd.|
Bangalore | May 2021 To Feb 2023

App Developer | Freelancer |
December 2019 To March 2021

Android Developer | Web Addiction |
Raipur | July 2017 To November 2019

Android Developer | Arera Technologies (VMEDO)|
Bangalore | August 2015 To November2016

PROJECT EXPERIENCE

- **First Project**

Application Name	**: Locate 360**
Platforms	: Web and Mobile Apps
Technologies Used	: React, React Native, Google Api's, Json, Firebase, Azure
Tools	: Android Studio, Vs Code, Xcode
Team Members	: 6 members

  Description   : Developed two robust mobile applications and web app for field technicians and managers to manage job assignments and track precise on-site locations across the U.S. The Technician app enables real-time status updates, offline functionality, and background synchronization of large data sets (1000+ images). The Manager app allows daily job assignment and monitoring. Built with scalable architecture supporting both online and offline modes for reliable field operations.

  Roles & responsibilities :
  - Develop and maintain applications using React and React Native, implementing features and functionalities to enhance user experience and meet project requirements.
  - Collaborate with designers and backend developers to integrate APIs and ensure seamless communication between front-end and back-end systems with offline feature, while adhering to coding standards and best practices.

- **Second Project**

Application Name	**: Ecosys**
Platforms	: Web and Mobile Apps
Technologies Used	: React, React native, Firebase, Redux, Video-Sdk-Live
Tools	: Android Studio, Vs Code, Ios- Xcode
Team Members	: 4 members

  Description   : Developed a suite of 5–6 role-based mobile applications and a web app under the Ecosys platform for residential community management. Key features include visitor registration with video call verification, service bookings (e.g., plumbers, food delivery), facility reservations (pools, theaters, etc.), and AI-powered license plate recognition for automated gate access. Integrated map-based parking management and user-specific functionality for residents, managers, and service providers.

  Roles & responsibilities :
  - Collaborate closely with cross-functional teams to translate project requirements into intuitive user interfaces and seamless user experiences.
  - Take ownership of project milestones and deadlines, ensuring the timely delivery of high-quality code while adhering to best practices and industry standards.

- **Third Project**

Application Name	**: EazeU**
Technologies Used	: React Native, Google Api's, Json, Firebase , Firestore
Tools	: Android Studio, Vs Code, Xcode
Team Members	: 3 members
Description	: Built a multi-vendor eCommerce platform with separate apps for

customers, vendors, and delivery personnel. The customer app locates nearby vendors for groceries and essentials, supports itemized ordering, real-time delivery tracking, and integrated payment gateway (COD/online). Vendors receive instant order notifications, and a dedicated delivery app tracks delivery agents via live location.

Roles & responsibilities :
- Drive the development and optimization of React Native components for an engaging and intuitive ecommerce mobile app experience, ensuring seamless navigation and robust functionality.
- Collaborate with cross-functional teams to integrate payment gateways, implement product listing features, and enhance checkout processes, delivering a smooth and secure shopping experience for users.

- ## Fourth Project

Application Name	**: Vmedo Partner**
Technologies Used	: Java, Android, Google Api, Json, Firebase
Tools	: Android Studio
Team Members	: **5** members
Description	: Developed a healthcare-focused application offering location-based

ambulance booking with automatic nearest provider selection. Integrated an eCommerce module for medical equipment procurement and partnered with hospitals to offer additional health services through the app.

Roles & responsibilities :
- Focused on user-friendly interfaces and real-time data integration to empower users in managing their well-being effectively.
- Collaborate with designers and backend developers to integrate APIs and ensure seamless communication between front-end and back-end systems, while adhering to coding standards and best practices.

- ## Fifth Project

Application Name	**: Aakar360 Business**
Technologies Used	: React native, Google Api's, Json, Firebase
Tools	: Android Studio, Xcode
Team Members	: 4 members

Description : Built a B2B application tailored for the steel and manufacturing industry, enabling seamless coordination between industries and vendors. Key features include order management, billing, payments, and real-time location tracking of delivery trucks for heavy steel logistics.

Roles & responsibilities :
- Drive the development of React Native components tailored for B2B ecommerce applications, ensuring scalability and customization to meet the diverse needs of business clients.
- Collaborate with cross-functional teams to integrate payment gateways, implement product listing features, and enhance checkout processes, delivering a smooth and secure shopping experience for users.

EDUCATION & CERTIFICATION

- Master of Computer Application (**MCA**) from Disha Institute of Management and Technology, Raipur – 73.29%, Year 2014.
- Bachelor of Science in Information Technology (**B.Sc.(IT)**) from B.P. Deo Govt. PG. College Kanker, – 65%, Year 2011.
- **Java** Certification from Sathya Technologies, Hyderabad.
- **Android** Certification from QEdge Technologies, Hyderabad.
- **Microsoft** Tech Fest Certification for Windows phone app development.
