Name: Pradeep Raj
Mobile:7893870026   **E-MAIL: pradeeprajcode@gmail.com**
9052671240

Professional Summary

- 8+ years of experience in Developing and Maintaining applications.
- Experience in Technologies: Java Script, Node.Js ,Express.js,MySQL.
- Proficient in utilizing tools like Postman, Jira , Bitbucket for project efficiency.
- Follow Agile Methodology in Project Development.
- Understand how to effectively delegate tasks and how to prioritize work.
- Coordinate with team members for efficient work progress

Technical Skills

- Programming Languages: JavaScript(ES6), Typescript
- Framework s: ExpressJS , Nest.JS
- Database : MySQL , PostgreSQL , Sequalizer – ORM,Kenx.js
- Cloud Technologies : AWS – S3 bucket, RDS,Lambda , Dynamodb
- Version Controlling Tools : GIT,BitBucket, GITHUB
- Tools : Postman , VScode ,SonarQube , Jira

Professional Experience

- Motion Pixel Tech Pvt, Software Developer (2014 May – 2016 Jan)
- DataPro Information Technology Pvt Ltd (2017 Jan – 2020 Apr)
- MARS Symantech Pvt Ltd, Software Developer (2020 Sep –2022 Feb)
- LifeTime Wellness Rx Internation Pvt Ltd, Software Developer(2022 Oct – 2023 Oct)
- CoreFront Tech Pvt Ltd , Software Development Engineer (2023 Dec – 2025 Feb)

Project: LBR(Learn By Research)

- **Backend Development**: Developing backend services using Node.js and Express.js ensure fast and scalable API.
- **Database Management**: Developed complex MySQL queries for efficient data manipulation.
- **API Development**: Created API documentation and conducted rigorous testing using Postman. Integrated third-party APIs toenhance functionality.
- **Project Management**: Managed project tasks and tracked progress using Jira. Participated in Agile sprint planning and daily stand-ups.
- **Version Control and Agile Development:** Managed using Git with Agile workflow for iterative development

Project: Urlife WebApplication

- **Backend Development**: Developing backend services using Node.js and Express.js. Architected RESTful APIs to support frontend applications. Ensured secure and efficient data handling and storage.
- **Database Management**: Developed complex MySQL queries for efficient data manipulation. Implemented database schemas, normalization, and indexing strategies.
- **API Development**: Created API documentation and conducted rigorous testing using Postman. Integrated third-party APIs toenhance functionality.
- **Project Management**: Managed project tasks and tracked progress using Jira. Participated in Agile sprint planning and daily stand-ups.
- **Version Control and Collaboration:** Used Bitbucket for version control and code reviews. Implemented continuous integration and deployment pipelines.

Project: Urlife Hranextgen

- **Backend Development**: Developed backend services using Node.js and Express.js. Created RESTful APIs for data exchange between the dashboard and backend systems. Ensured data security and optimized performance.
- **Database Management**: Implemented MySQL database schemas and queries to handle large volumes of data.
- **API Development**: Documented and tested APIs with Postman.
- **Project Management**: Used Jira to manage tasks and collaborate with the team.
- **Version Control and Collaboration**: Bitbucket for code versioning and reviews.

Project: urlife_admin

- **Backend Development**: Implemented backend services using Node.js and Express.js. Developed RESTful APIs for data management and interaction with the admin interface. Focused on security and efficiency in data handling.
- **Database Management**: Created and optimized MySQL database schemas and queries.
- **API Development**: Documented APIs and conducted extensive testing with Postman.
- **Project Management**: Used Jira for task management and team collaboration.
- **Version Control and Collaboration**: Bitbucket for version control and code reviews.

Project: FarcoStore

- **Backend Development**: Developed RESTful APIs using Node JS and Express. Focused on security and efficiency in data handling.
- **Database Management**: Created and optimized MySQL database schemas and queries.
- **Project Management**: Used Jira for task management and team collaboration.

Achievements

- Achieved improved application performance and security by implementing best practice in coding and optimization strategies
- Collaboration across teams, leading to delivery of high-quality software products that meet business
- Collaborated with front-end developer and deliver high-quality product

Declaration

I hereby declare that the above information is true to the best of my knowledge.
